

Robert Blaschke

# The Chiron Transit Cycle

By **Linda Anderson**  
ASA Scribe

Chiron was discovered on November 1, 1977 at 4 degrees Taurus. Robert regards Chiron, whose orbital path lies between Saturn and Uranus, as a spiritual messenger linking the visible Saturn, with its earthly boundaries, to the unseen Uranus and its spiritual awakening. Because of its elliptical cycle, Chiron spends less than two years in Libra, more than eight years in Aries, and varying amounts of time in the other signs. Chiron returns to natal degree between age 49 and 51.

Experiential phases of the Chiron transit cycle:

- 1) **New Phase** – transit Chiron 0 to 45 degrees ahead of natal Chiron - Emergence of wound.
- 2) **Crescent Phase** – transit Chiron 45 to 90 degrees ahead of natal Chiron at waxing semi square - Assertion of wound into childhood experience.
- 3) **First Quarter Phase** – transit Chiron 90 to 135 degrees ahead of natal Chiron at waxing square - External resistance from others to one's woundedness.
- 4) **Gibbous Phase** – transit Chiron 135 to 180 degrees ahead of natal Chiron at waxing sesquiquadrate - Questioning and searching for illumination about one's woundedness.
- 5) **Full Phase** – transit Chiron 180 to 135 degrees behind natal Chiron at opposition - Objective understanding of woundedness. Because of Chiron's elliptical orbit, the opposition may come between the ages of 13 and 37. Regardless of age, one should become fully aware of and understand the wound at opposition.
- 6) **Disseminating Phase** – transit

Chiron 135 to 90 degrees behind natal Chiron at waning sesquiquadrate – Synthesis and assimilation of woundedness.

- 7) **Third Quarter Phase** – transit Chiron 90 to 45 degrees behind natal Chiron at waning square – Reorientation of life toward healing the wound.
- 8) **Balsamic Phase** – transit Chiron 45 to 0 degrees behind natal Chiron at waning semisquare – Release of woundedness. One may use positive prayer or other techniques, such as writing down perceived wound and then burning paper, releasing ashes to the universe, etc.
- 9) **Chiron Return** – transit Chiron returns to conjunction with natal Chiron – initiation into life purpose as healer. A second cycle of Chiron should be repeated with adult consciousness of one's own wound having been healed and compassion for others being foremost in one's self.

Robert demonstrated Chiron Retrograde as past life wounds, with examples from class charts, as well as his own practice. Chiron Retrograde shows where one needs to overcome fears brought over from past life experiences.

Chiron can also be used in Synastry and Composite Charts and denotes the goal of partnership in such charts.

This discussion of Chiron enabled a clearer understanding of this spiritual messenger sent by the holy spirit to not only integrate our own lower and higher selves, but also to learn love, forgiveness and compassion for all the others on our planet.

For this message of light, thank you, Robert.
