## THIS MONTH AT THE ASA CATHY ZORNES

**Friday: YOUR ASTROLOGICAL STORY**

**Saturday: ASTROLOGY OF CREATIVE PEOPLE AND PROFESSIONS**

---

On Friday, Cathy will present a unique way to look at your own personal chart as it relates to the components of story structure, including characters, antagonists, protagonist, setting, scenes, conflict, etc. It's a way to sum up your soul's journey. Cathy will use examples from movies and show you how to discover your own quest.

On Saturday, she will discuss the traits needed for creative professionals, such as actors and entertainers (movie, television), writers (poets, screenwriters, novelists, science fiction, romance), comedians, music makers (singers, musicians), dancers, fine artists, etc. She will bring an array of charts for famous people in each of these professions and discuss the components of their astrology charts, including planetary emphasis, aspects, house placement, and sign prominence, that show their creative potential.

There are some very vivid patterns which may help attendees to delineate their own charts.

***Last month at the ASA....Robert P. Blaschke***

**Friday: The End of An American Era**

In June, transiting Saturn will make an exact conjunction to the U.S. Sun at 13° of Cancer (Sibly chart) for the first time since the three conjunctions in 1974-75. Last time this happened, President Nixon resigned on the very day the first conjunction occurred, and Saigon fell one week after the third conjunction. At the same time (March, 1975), the U.S. progressed Sun entered the sign of its detriment, Aquarius.

In December 1996, right after President Clinton's re-election, progressed Saturn stationed retrograde. In July 2006, the U.S. Mars turns retrograde by progression. The exact midpoint between these two events was September 11, 2001.

***Karma and the Curse***

President Bush, born on July 6, 1946, has his Sun conjunct the U.S. Sun. Between June 1-15, it will become clear what the Saturn conjunctions mean for both him and this country. Bush is a Tecumseh's Curse president. This curse was laid on the United States on May 11, 1839. Curses emanate on the astral plane and are ruled by Neptune, which was at 14° Aquarius 37' at the time the curse was imposed. Therefore, this is the

last year of its effectiveness. On October 24, 2004, Neptune will station within 1' of its curse position.

Saturn and Jupiter work in an 800-year cycle, making conjunctions in each element for 200 years. In each cycle, the next-to-last conjunction is in the element the cycle is moving into, and the final conjunction is in the original element. Ever since the time of the curse, Saturn and Jupiter have made conjunctions in the earth element, except for the 1980 conjunction in Libra under which President Reagan was shot but not killed. Since Bush is the last president to be elected under a Saturn-Jupiter conjunction in earth (Taurus, 2000), he will be the last to suffer from the curse. The 2020 conjunction will be in Aquarius.

### *Spiritual Protection and Destiny*

On November 1, 2004, the day before Election Day, the U.S. Sun progresses into Pisces. Not only does this temporal coincidence underscore the significance of the battle for the presidency, but it marks a change from a Saturn-ruled Aquarian era into a Jupiter-ruled Piscean era.

With our Cancer Sun, the U.S. is a water element nation. When the Sun progresses into Pisces, we are coming home to our watery roots. For the next six years, the progressed Sun will trine our Venus (3° Cancer) and Jupiter (5° Cancer), bringing much more prosperity, civility, and social cohesion.

In 2010, there will be a massive cardinal T-cross in the sky: Mars and Saturn will conjoin at 0° Libra, opposite Jupiter-Uranus at 0° Aries, and squared by Pluto from early degrees of Capricorn. In the Ingress chart for this t-square (July 31, 2010, Washington, DC), the U.S. Venus falls in the empty arm of the t-cross.

Robert noted that Saturn-Uranus-Neptune is the signature of Islam. This “super-conjunction” marks the aggressive expansion of the Islamic faith, just as it did when the faith first began its expansion in 622 C.E.

(Editor’s note: this conjunction occurred in 626 C.E. In 622 C.E., the year the Islamic calendar begins, Uranus and Neptune were conjunct in early degrees of Virgo, and Saturn was conjunct retro-

grade Mars in Cancer, squared to Pluto in Aries. By the end of the year, Saturn was conjunct the north node in Leo. All data from the Astrodiest website.)

Today’s young terrorists belong to the Neptune in Sagittarius generation, and many of the masterminds of terrorism have the Uranus-Pluto conjunction in Virgo from the late 1960s.

In September 2010, the U.S. progressed Sun will arrive at an exact trine with Jupiter. The U.S. will be spiritually protected while Europe, Russia, Israel, and the Middle East explode in flames. Even now, it is clear that political and military solutions are not working and that a higher consciousness is needed. We know that the U.S. has a sacred destiny because it was born right around the time Uranus was discovered. The next 6 years are crucial if the U.S. is to step into its destined role of global spiritual leadership.

### **Saturday: Jupiter and Saturn**

The hidden sides of Jupiter and Saturn are that Jupiter rules Pisces and Saturn rules Aquarius. Both are planets of social concern that connect us to something outside of ourselves. As ruler of Sagittarius, an intellectual fire sign, Jupiter shows our aspirations. As ruler of Pisces, an intellectual water sign, Jupiter relates to the creation of our own reality through our belief systems.

Saturn ruling Capricorn shows our long-range goals in life. Ruling Aquarius, it is concerned with the redistribution of resources in the community. Saturn is exalted in Libra and in its fall in Aries—another clue to its cooperative nature.

The Aquarian side of Saturn is the need for social approval, especially if it is conjunct the Sun. You want to feel you are part of the community. Saturn rules depression, but it is also the natural ruler of the 11th, which is volunteer work or community service, an age-old antidote to depression. Here it ties in with Jupiter, natural ruler of the 12th, in fostering the development of compassion and understanding of other peoples’ struggles.

According to C.E.O Carter, *Principles of Astrology*, fire and water elements go together because both are emotional, intuitive and instinc-

tual. Earth and air go together because they are mental and deliberative. Also, they share common rulers:

Mercury: Gemini & Virgo

Venus: Taurus & Libra

Saturn: Capricorn & Aquarius

Mars: Aries & Scorpio

Jupiter: Sagittarius & Pisces

Robert didn't mention this, but some ancient astrologers used both the Sun and the Moon as co-rulers of Leo and Cancer. The Sun would rule Leo in a man's chart and Cancer in a woman's chart, and the Moon would rule Cancer in a man's chart and Leo in a woman's.

Saturn and Jupiter work in tandem. At 59 years of age, they both return in the natal chart. Their phase relationship can tell you something about the individual's approach to success and failure. If your Jupiter and Saturn are in a waxing phase, you are shocked by losses and sorrow, and you are elated by success. Only later do you develop the philosophical awareness that losses and gains are just part of life's ebb and flow. People who have an easier time balancing success and failure are in a waning phase of the Jupiter-Saturn cycle.

Presidents Clinton and Bush both have Saturn in detriment: Clinton's Saturn is in Leo, and Bush's is in Cancer. Historically, presidents with strong Saturns have commanded the most respect. Those with weak Saturns are liked only by their partisans. Politicians born in the 1950s, such as Tony Blair, John Edwards, and Vladimir Putin, have stronger Saturns and are stronger leaders.

The onset of medical problems can be seen by secondary progressions involving Jupiter and Saturn. Saturn ties in with chronic health problems; and Jupiter ties in with liver, blood pressure, and purity of blood issues that develop as we age. When Saturn progresses from its detriment to a more neutral sign, a chronic condition can disappear.

Jupiter is our potential, what we can grow into. It is the urge for self-improvement. We are born

with a code in our soul, and it unfolds throughout our life. Jupiter's house position is where we grow in self-confidence and where our belief in ourself is strengthened. If Jupiter is retrograde, a person may reject his parents' religious beliefs and may alternate between optimism and pessimism. Jupiter retrograde is more like Pisces than Sagittarius.

Saturn is where the concentration of our karmic effort will have to be placed in this life. When a person has Saturn retrograde or in the 12th, life-changing experiences seem to come out of left field and force him into certain directions, with no choice allowed. The positive expression of Saturn is the acceptance of duties and responsibilities. Saturn's house position shows where we feel the greatest amount of pressure in life and where we must develop the integrity and character to stand up to it. Saturn retrograde is more like Aquarius than Capricorn.

People born with Saturn and Jupiter conjunct are visionaries and trendsetters. They see where society and the culture are headed and they often begin making their mark in society at the Jupiter-Saturn conjunction following their birth.

## **2004 Predictions in Depth – Part II**

*By Judy Collins, ASA Education Director*

*Many of the accompanying charts are on the website under Education.*

### **Inauguration Day: Jan. 20, 2005**

Chiron at degree of Nodes = if Republicans win, trying to heal nation will depend on how Congress changes. If Democrats win, try to heal the party and get ready for a wild ride, being hit at every move. Watch Hillary next 4 years.

T-square: Mercury opposition Saturn square Jupiter = ANY Pres. carries a big cross for the next 4 years – doubted, disagreement on all factors & judgment is questioned.

Venus & Uranus critical degree = voters are unhappy with overseas plans, politics dirty up water for Congress to make positive changes.

Saturn = Pres inconjunct Pluto, ruler of 7th = new VP – even possible death of VP.

Mars conjunct Pluto, co-ruler of 12th = cost to fight terrorism is putting us way in the hole, but we can’t afford not to do it – no one has an answer on how to cut costs, and who would risk doing that?

### **New York Stock Exchange**

Dow reached 10,000 on 12/11/2003 = major transits were Jupiter conjunct natal Mars & Neptune conjunct 7th cusp, plus Sun conjunct Pluto square Jupiter – the last time Dow went over 10,000 was 5-24-2002. The highest was 11,722 on 1/24/2000. It should go up to at least 11,500 by April or May. Only things that could disrupt the Dow would be terrorist attacks, something like more Mad Cow disease, interest rates jumping up, or the war with Iraq expanding into other countries.

Saturn opposition Mercury = bad news hits market.

Saturn square Pluto = change in the everyday activities = still talk about merging with NASDAQ, change in Board of Directors.

Uranus inconjunct Asc = changes in the laws on how stock is traded for protection against insider trading, pricing, and illegal activities by brokers.

Chiron opposition Asc = attempt to heal investors and protect them better.

### **NASDAQ**

NASDAQ reached 2000 = up 50%. Will reach 2,350 by summer.

Moon square Jupiter = growth in NASDAQ is slow but safer.

Jupiter square Chiron = new investing laws on mutual funds help investors, interest rates control both markets this year.

Chiron inconjunct Mars = news takes periodic hits at market.

Pluto trine Venus = good profits for smart investor in stocks other than just tech stocks; for example, companies that do medical research.

### **UN**

Jupiter trine Pluto = this year should be a better year for UN, with treaties & sanctions being dropped.

Jupiter trine Chiron = Aid should be increased – Transiting Pluto conjunct 9th cusp = changes in the way UN operates.

Saturn trine Mars = opportunities to change image – maybe a new Pres.

Chiron trine Pluto = money for AIDS and inoculation of children should be top priority.

NN trine SN trine Sun = children should be the main factor for peace.

### **Department of Homeland Security**

The most important chart of the night...controls all of us...and should be watched the most. New levels are now added...when changed, check the chart for reasons and if real...as this is the chart of the only agency that protects us from the terrorists...others may give aid...and plenty of advice...but this is #1.

Cancelled flights – diverted flights – raised alert on Winter Ingress.

Mars inconjunct Asc. = Agency will have to make changes in its direction and depending on the transit hits – how much and when.

Saturn opposition MC = Congress could try to put more restrictions on agency.

Neptune opposition Moon = one complaint by public is levels change – that should be corrected with new plan of having some airports and cities never going off orange alert, and each can now set own levels.

Chiron inconjunct NN = safety methods implemented such as new fingerprinting & photos of those who have visas, but more will be put in.

NN opposition & SN conjunct Mercury = more strict rules and security checks.

Uranus trine Mars = more terrorists are detained by US at borders and some attacks are cancelled by terrorists, such as over the holidays.

Neptune trine Mercury = Agency (Neptune ruler of Asc) is working successfully.

MC trine Venus = viewed by public as an asset.

### **CIA**

Moon square Neptune = Busy little “bees” doing their own thing – good time for spies – not too sure not working on political assassinations again.

Moon inconjunct MC = public’s view of CIA is that they are not supplying good espionage, but do we even know?

Venus opposition NN conjunct SN = money is the issue – Congress is fighting them on some mission.

Pluto conjunct Mercury = some big stealing of secrets – very successful mission by CIA.

Venus trine Sun = Tenet is “in charge” (Sun ruler of 10th) & doing well.

Saturn trine Pluto = new communication technique is implemented – media praises them for getting the job done.

Chiron trine Asc. = opportunity to make good press this year with catching more terrorists & providing good information.

### **1st hit on Baghdad**

Transiting Pluto conjunct MC = 1/14, 6/10 Rx, 11/13 D – dates for major activity – worth watching all the news for Iraq.

Aspects near 2nd year = Mercury conjunct Sun: positive steps to self-rule, big changeover for troops, Constitution by late summer.

Venus trine Saturn (8th & 3rd) = funding by Congress, completion of deck of cards.

Sun trine NN & SN = War will show a major improvement as the groups of insurgents are rounded up.

Pluto conjunct MC = major changes in Iraq – watch this year the news on a more settled country, business is getting back to normal, daily activities are returning to normal.

### **Saddam Hussein**

When captured, Saddam had these EXACT aspects: Saturn on SA Sun, SN on SA Neptune, NN on SA MC, Mars (28° Pisces is same as bombing Sun & Mercury, ruler of 4th) on natal Saturn (0° Aries), transiting Sun at 21° Sag., Pluto 19° Sag opposite Chiron.

Venus inconjunct Jupiter = ex-military and former servants, family members turned him in. His health might be an issue for him during the year.

Saturn opposition Mars = controlled by US, which will become a legal battle.

Chiron square Mercury = illness becomes a factor.

NN & SN trine Chiron = there could be an improvement in his health after treatment.

### **Capture of Saddam Hussein**

Moon (hidden terrorist – 12th) at Lords of Karma (15° Leo) = #1 Terrorist.

Mercury opposition Saturn just separating = others ratted on him, gave him up.

29° on 4th & 10th = this was end of life as he knew it & could have been end of his physical life, too.

Saturn inconjunct Neptune = military would have killed him if directed.

Venus & Pluto at degree of Nodes = purpose of raid was successful: money & the man.

### **Iran**

Earthquake 12/16/03: SA nodes at degree of natal Sun, transiting SN conjunct natal Uranus in 4th, transiting Jupiter conjunct natal NN = all signatures for earthquakes.

Mars inconjunct Uranus = foreign country (US? Not Iraq or UN) forcing changes – aid for victims making positive impression on the people.

Mars trine Neptune = again, foreign (Mars) countries helping with aid and a wonderful time for foreign spies to get in.

Venus trine Jupiter = ruler of Iran escapes assassination attempt.

### **Saudi Arabia**

Uranus conjunct Moon = neighboring countries (Israel, Iraq, Egypt) coming to live & upsetting conditions with people (Moon), terrorist attacks on royal family & citizens.

Nodes trine Saturn = keep oil prices down (OPEC), despite rest of members who argue.

Nodes conjunct & opposition Chiron = illness in royal family & attacks on citizens.

### **Israel**

Venus conjunct Mars = good chance for treaty finally to work because either one has no place else to go. Israel cannot be in a better place to sign this agreement, and Palestine is working with a man who is dying and they know it. He is practically out of power already & has no source of financial support – Palestine had better take what is offered – Israel will do no better, either. The US is tired of the knuckleheads who run these two countries – it is truly time for major changes.

Jupiter square Chiron = Palestine (other neighboring countries) leader is very ill and may die this year (Egypt & Saudi Arabia).

Saturn trine Mercury = with help from US – Palestine & Israel will sign treaty.

Saturn conjunct Neptune = old religion meets fanaticism, but who is who?

Neptune trine Moon = more help from US.

Asc. inconjunct Su = Sharon steps down – dies – is replaced or is ill.

### **Ariel Sharon**

Mars trine NN & trine SN = now with transiting Saturn on his natal Pluto, I'd look for him to be replaced, unless he considers this treaty a complete loss for him personally, which he might.

MC square Saturn = another confirmation for him being replaced – voted out.

### **Palestine**

Sun opposition NN & conjunct SN = Sun also represents Arafat and people of Palestine = seems like a loss to them.

Nodes square Moon = young terrorists have also been forced to accept treaty and find it hard (Moon ruler of 12th).

NN inconjunct MC = those who wish Palestine bad things are also in control of their status.

Neptune inconjunct Chiron = War or Peace – 8th house is money given to Palestine to heal old wounds.

Neptune square MC = 8th house is money cut off from Israel's enemies, such as sale of weapons & SAMs to Iraq & handguns.

Moon trine Sun = opportunity for people to take control if helped.

Sun trine Neptune = Arafat & people of Palestine need religious sites given to them as part of treaty.

Syria & Pakistan need to be watched along with Saudi Arabia as the real tormentors now.

### **Yasser Arafat**

Has been very ill.

Moon square Mars = illness – death – full moon & Saturn conjunct Pluto – might hear in news soon – not sure if they can take him out for treatment.

Sun opposition Chiron = U.S. will not allow him out of compound for help (Sun), so it's not Israel.

Mars inconjunct NN = surgery is needed.

Neptune opposition Chiron, Neptune opposition NN & conjunct SN, Moon trine Neptune = infection – cancer – death = another Shah of Iran story forming here.

### **Korean Armistice**

Mars square Jupiter = More talks on disarmament of nuclear weapons – leader is really the problem.

NN inconjunct Pluto = agrees to inspections – make adjustments – inconjunct: only recourse is to adjust or for them to use them.

Mercury trine Uranus = Good control in South Korea is maintaining peace – really not the problem – North Korea really only wants more respect in world matters.

Mars trine Chiron = No significant problems this year – but needs to agree to “talks” to see direction of their intent.

This will be a major battle one day if this country is not taken care of soon – we will really have to watch them carefully.

### **North Korea**

Jupiter opposition Pluto = money is not coming in now – they are in financial difficulties.

Chiron inconjunct Pluto = covert sales are being stopped as more ties to terrorists come to light.

SN inconjunct Venus = treat of war (7th); we may need to call their bluff & if they “blink” then no one is backing down – this will take awhile to develop.

Jupiter trine Moon = illegal sales to raise money; has to find other markets now.

### **South Korea**

Moon opposition Mercury = money payoff from whom? To stay silent and don't look for trouble, maybe.

Moon opposition Saturn = (US) & ? is pushing North Korea & other “neighboring countries” To stay out of problem area.

This is pure “shoving under the rug” but that’s probably a good thing – we can’t divide up militarily without starting up the draft again, but that is a strong possibility.

### **Greece**

Olympics run from 8/13 (a Friday) to 8/29. Ceremonies begin at 9:00 AM. Article in later newsletter on Olympics.

Moon trine Venus = makes a great impression on the world.

Pluto trine Venus = (Pluto rules 5th house for games) make lots of money but also costs country.

NN trine & SN trine Jupiter = good training for military and security control.

MC opposition Uranus = debt or profit will depend on world conditions at the time – it will go on, but money is made from tourists who travel afterwards.

No squares in Olympics chart – real danger isn’t over until 8/17 when Mars opposition Uranus – Uranus at degree of NN & SN & Venus – Mercury is Rx applying to a conjunct with Mars – Sun 21 Leo is critical degree inconjunct Chiron & Jupiter trine Saturn opposition Chiron.

### **Arizona**

NN inconjunct Sun = ALL ABOUT LAND THIS YEAR = since we really don’t have state’s time – the Sun can represent the Gov – she starts taking hits from Romley.

700,000 acres to be preserved of the 9.3 million that is trust left in the state – this money will go to schools and universities.

5.65 million people in state – 518,000 added in less than 4 years – 383 newcomers a day.

2nd fastest growing state behind Nevada in percentage of new residents.

In numerical terms, AZ had twice as many new residents as NV.

Nationally ranked 5th in number of newcomers behind California, Texas, Florida.

44% from other states.

32% births exceeding deaths.

25% from immigration, both legal and illegal.

There are 292.2 million people in the U.S.

### **Phoenix, Inc.**

This time is accurate for the incorporation of Phoenix, and since Phoenix has major influence and control over AZ – reads for state.

Mars inconjunct Neptune = politics about to turn ugly again – legislation gets bogged down on changes and so do city politics.

Moon trine Pluto = Growth – renewal of downtown & neighboring communities – good year for city workers.

Mercury trine Pluto = good improvements for school testing – more schools being built.

MC trine Pluto = MC (status & reputation) – city seen as growing fast – city would love to annex more land and developments being built.

Think of Phoenix as Pluto in 2004 – lots of rebuilding – tearing down & reselling & then building new = Phoenix.

### **ASA, Inc.**

This is my pick for ASA’s chart – the Incorporation chart.

Saturn opposition Asc = exact on 7-13-2004 – could be loss of membership, organization faces serious challenges – hard work for those who keep it going – try to bring in new members; if not, live with an ever-depleting number of members – we are all getting older – our club is 30 years old – every organization except the AARP is getting smaller as people change what it is they do with their time and how much effort they are willing to do to make it grow.

Neptune square Pluto = membership sees changes with lecturers – education – newsletter.

### **ASA Organizational Chart**

This is the other chart the group used in past.

Mercury opposition Chiron = changes in bylaws.

Jupiter inconjunct Pluto = lecturers will be adjusted and changed – other fundraisers.

Neptune conjunct NN, opposition SN = webpage takes command of our news.

Moon trine Venus = better negotiations on rent and increase in revenue.

Jupiter trine Saturn = Pres. Should work closer with VP & Education should be an office to run for, so there might be changes.

Saturn trine Pluto = President should run a fund-raising committee.

Pluto trine Saturn = Treasurer should work with Pres. on money concerns of membership. Treasurer's job is not to be the designated money collector at the door. All board jobs need to be reworked and re-emphasized in a manner that the whole board does major things for the association ... more later!!!!!!

### 29° Aries Partial Solar Eclipse

4/19/2004. All eclipse charts are set for DC.

Eclipse at 29° = I don't like eclipses at 29° but I do think I'm prejudiced – however, when it rules houses that are also 29°, then I get worried – plus the following reasons:

Critical degrees: Sun & Moon 29° = rules our home and money – the two major places where a Cancer wants security.

13° Cardinal on 2nd & 8th = perfect time for someone to mess with interest rates & stock market.

29° on 4th & 10th = end of the Bush administration = end of good interest rates if not careful.

Neptune at Lords of Karma (15° Aquarius) = co-ruler of 10th – not good for Bush in foreign matters – trips – travel.

Transiting Mercury triggers eclipse on 5/15 = date to watch the news about houses mentioned before.

No squares in chart = probably a good thing – however, new work needs to be started from a 29° eclipse.

Closest applying aspect is Jupiter opposition Uranus but never gets exact – so the next closest applying aspect is Mars opposition Pluto, which is exact on 4/24 – that aspect is never good – but sure lives up to the 29 degrees of endings.

Thank goodness this is a partial solar eclipse.

### 14° Scorpio Total Lunar Eclipse

This is the eclipse before major campaigning and conventions for President.

T-square and closest applying aspect = Sun opposition Moon square Neptune = Sun is VP = Congress opposition Moon = Pres square Neptune, ruler of 6th house = all 6th house “stuff” – military – politics – health matters for VP.

1st transit trigger on 10/24 is Mercury at 14° Scorpio = tax cuts and foreign affairs.

T-square is Pres. Bush = the T-Square is all about Bush – these are his hard, dark days – this is not a good eclipse.

Critical degree Chiron & Neptune at Lords of Karma = military – death rate – loss of lives.

### 21° Libra Partial Solar Eclipse

Closest aspect Venus inconjunct Neptune = pick for VP gets “adjusted” by Bush if Cheney steps down as VP.

Only opposition in chart is Mercury opposition NN = Terrorists – homeland security very active – Alerts.

Critical degree Saturn = tax cuts – Stock Market – so goes election.

### 5° Taurus Total Lunar Eclipse
